On your arrival at the farm, you will be able to rest and relax and explore the farm before your first day riding tomorrow. Dinner included.

Important: Senegal is a French-speaking country and international tourism isn't fully developed yet. Your guide Ibou speaks basic English but it is likely the rest of the group will be French speakers. Drivers, restaurant/hotel staff may not speak any English at all. A basic command of the French language and a sense of adaptability is strongly recommended to join this trail. If you do not speak any French, please contact us before booking.

## Day 2 – 2 : SOUSSANE - MBODIENE - 5 and a half hours riding

After breakfast, you will be taken to meet the horses and take your first ride. You will have lunch at Sarène Farm, and then your ride will begin. You will ride through the acacias forest of Nianing and remote scrubland villages enjoying all three paces.

You will spend the night at La Thiossane Lodge, a simple guesthouse facing the lagoon.

## Day 3 — 3 : MBODIENE - FADIAL - 6 hours riding

---

You will wake up to a breakfast opposite Mbodiene lagoon and head out on the day's ride. The morning's route will take you on a path between land and sea where you will have the chance to observe all manner of birds along the length of the lagoon - cormorants, spoon bills, cranes, flamingoes, herons and hundreds of pelicans...

Beyond the lagoon, you will see stretching out ahead a vast wild beach. For lunch, you will picnic out in the bush at the foot of a baobab tree. A trip to the isle of shells is also on the cards; this island is entirely made up layers of shells and the roads are strewn with them. The creation of the island, according to traditional tales, is due to the accumulation of shell waste thrown out by the villagers over the course of the centuries. The island is linked to the coast by a wooden bridge.

You will then ride at the Baobab Lodge, Fadial, where you will spend the night.

## Day 4 — 4 : FADIAL - PALMARIN - 4 hours riding

---

On the day's ride, you will discover the Sacred Baobab tree of Fadial; this tree has a circumference of around 26.18m. Then you will ride through the dried lake beds and swamps by passing through a secret passage through the mangrove trees. Depending on the tide, you may cross to the beach by swimming with your horse to reach Palmarin beach for some spectacular long gallops. You will arrive at your ecolodge for the night in time for dinner.

## Day 5 — 5 : PALMARIN - NIASSAM - 5 and a half hours riding

---

After breakfast, you will ride out towards the beach to Djifer point, then through the bolongs - a channel of salt water characteristic to the coastal regions of Senegal. Their banks are usually lined with mangrove trees, partially covered at high tide and home to a large variety of birds.

After your picnic lunch, you will explore the bolongs in a pirogue, a type of dugout canoe. You will have dinner and spend the night in an ecolodge.

## Day 6 — 6 : NIASSAM - SIMAL - 7 and a half hours riding

---

You will head out for a long day in the saddle to explore the Senegalese brush. You will ride through the trees and outback villages. After 4 hours riding, you will stop for your lunch in the Samba Dia forest. You will then ride passed the villages of Yayème and Djilor before reaching the Source aux Lamantins, found on the banks of the lagoon in the heart of lush vegetation.

You will spend the night in an ecolodge.

## Day 7 — 7 : SIMAL - SOUSSANE - 7 and a half hours riding

---

The day's ride will be the last long stretch in the saddle. You will ride passed the remote village of the brush and through Balabougou forest.

You will ride at speed between the villages for this final day before stopping for your picnic lunch at Ndofane.

Towards the end of the afternoon, you will arrive back at the farm where you will have dinner and spend the night.

## Day 8 — 8 : SOUSSANE - BANDIA - DAKAR

---

After breakfast on the farm, you will be taken to the weekly market in Sandiara. The market is large and thriving with animals - sheep, goat, horned zebu, fruit and vegetables, gourds and incense - it will be a perfect chance to pick up some souvenirs!

You will return to the farm for lunch before heading out in the car to the Bandia Reserve where you will encounter large African mammals in 3500 hectares of grandiose nature. Your visit will be guided by a specialist to the area. You will then be transferred to the airport for your flight back home.

If you would like to extend your visit to see more of Senegal, we can help you organise an extension for a few days by the sea. Your hotel would have direct access to the beach and you would be able to explore the magnificent surrounding gardens with a variety of trees, a relaxing swimming pool, refined cuisine from the on location chef and their team with candlelight alfresco dinners. Situated at Nianing, a few kilometers from the farm at Sarène, we will help you organise the whole stay!

### PACKING LIST

#### Head

- A riding helmet is compulsory and we recommend that you take your own to ensure a correct fit. Helmet makers (GPA, HKM, LAS Helmets, Lamicell, Troxel, Equithème) now offer horse-riding helmets that are ventilated, strong, light and comfortable. You also have the option of buying protective shells to go under your hats (Ranch & Rider, Lexington Safety Products) or western hat helmets (Troxel).

- Buff or bandana for protecting your neck and face from the sun, wind or rain

- Thermal underwear (t-shirts with long or short sleeves)

- T-shirts in cotton and long-sleeved shirts (to protect against the sun) or t-shirts made from rapid-dry material

- 1 lightweight fleece or jumper

- 1 pair of lightweight shoes or trainers for the evenings
- Several pairs of socks
- Gloves - your hands are particularly exposed to the sun whilst riding

## Our Recommendations

- A soothing cream may be useful to treat areas irritated by long hours in the saddle

## SUSTAINABLE TOURISM

1. **Travel light.** It's a little known fact, but the lighter you pack, the better for the environment as heavy bags will produce higher emissions (when flying a plane or driving a car!).
2. **Reduce plastic waste.** Take your favorite reusable bottle with you. Avoid single-use bags, cups, or straws.
3. **Preserve nature.** Always take your rubbish with you during the ride and recycle them. Leave all the flowers or plants as you found them, and never get too close when observing wildlife. Make sure to use eco-friendly products such as body wash or laundry detergent (if camping) to protect both your skin and the environment.
4. **Choose your experiences carefully.** Respect animal life by not participating in any activities that abuse wild animals (shows, elephant rides, etc.).
5. **Support local populations.** Buy local handicrafts, be respectful of customs, and learn about the culture of local communities.
6. **Share!** Raise awareness among your family and friends about sustainable tourism.
