## EQUESTRIAN INFO

## Horses

---

The horses used are Criollo mix, the majority of them being between 14-15 hands. Criollo horses are medium sized but stocky and tough. These horses are energetic and keen, sure footed and well adjusted to the tough terrain and conditions. The traditional Chilean saddles consist of a basic frame upon which layers of sheepskin are placed for comfort.

You will ride the same horse throughout the trail

## Guide & local team

---

Oswaldo was born and raised in Puerto Natales right outside of Torres del Paine National Park. He has gained over 20 years of experience working and trekking in and around the National Park. He is one of very few gauchos that know the trails and terrain of this area in Patagonia. Spending time abroad in Canada and Australia he worked with horses and learned English. He then decided to return to his beloved Patagonia where he established himself as a gaucho and an outdoorsmen, and now delights in sharing his true home with international guests.

# Minimum riding ability

---

## MINIMUM RIDING ABILITY

This ride is open to intermediate and experienced riders. You should be able to ride at all paces over a variety of terrain and in open spaces. Previous experience of a multi-day trail ride is recommended.

Rider weight limit: 90kg / 198 lbs / 14 stone 2 lbs.

## PACE

The pace is varied and includes long periods of walk when crossing mountain passes, but there are regular trots (sometimes fast) and numerous opportunities to canter and gallop across the pampas.

## TACKING ABILITY AND PARTICIPATION

You are not expected to tack up your horse and this is all done for you by the team of baqueanos. If you wish to assist then you may do so. You may be asked to help untack at the end of the day.

## TRIP CONDITIONS AND REQUESTED EXPERIENCE

You need to be physically fit for the long hours in the saddle (c. 6 hours; some longer days) and potential treks on foot. You also need to be prepared for the unpredictable weather that Patagonia is famous for. You really can experience all four seasons in one day and the wind can be incredible. You also need to be open to a new style of riding and tack. There is a short hike to reach the boat tour.

Experience riding in open spaces is an advantage. Guests who do not ride regularly are requested to get fit prior to the ride. It is of particular importance to ensure you are comfortable and balanced when riding at speed across rough terrain and open spaces.

Visiting a new country offers the opportunity to meet other cultures with different mentalities, therefore it is important to accept these differences and respect the local way of life.

Clients should be made aware that the Torres del Paine National Park is roughly a 4-6 hour drive from the nearest trauma care facility in Punta Arenas (4 hours if they are situated in the Serrano area of the Park). There is a small hospital in Puerto Natales (3 hours) with a 24-hour medical assistance that can deal with minor injuries and illnesses. In the event of there being an accident or broken bone, clients would have to be taken out of the Park (probably by horse) to the nearest vehicle for the long drive out. There is one helicopter in the park for emergencies but it cannot fly in high winds. All our leaders carry first aid kits for dealing with minor injuries and incidents. Any client with a medical condition or using medication should discuss this with us prior to travel.

## EQUESTRIAN EQUIPMENT

You ride in traditional Chilean tack. The guides will likely have saddle bags and can carry small items for you (such as suncream), but you will need to carry your own camera in a bum bag or coat. You can tie extra layers/coats to the back of your saddle with leather straps.

The Chilean saddles are usually metal or wood-framed with layered felt, sheepskin and leather. The stirrups are cupped so the foot cannot pass. Most of the horses are ridden in a snaffle.

## TRAVEL INFO

### COMFORT

Estancias, glamping tents and country hotels with twin or triple rooms. Each location has been selected with care and offers good to excellent standards of accommodation in remote locations.

### MEALS

Meals are traditional and will include asado's (BBQ's) - most likely lamb. There may be fresh salmon, chicken or beef as well, together with plenty of fresh salads and vegetables.

Lunches are picnics and you make your own from foods provided at breakfast.

1 beer or soft drink is included at lunch, and wine in reasonable quantities at dinner.

Vegetarians can be accommodated with advance notice.

## CLIMATE

---

The climate is famously unpredictable! The rides only run during the spring/summer months and so the weather should be pleasant, but you really can experience all four seasons in one day. It is often windy and this can make it feel cold. Temperatures can reach 20c on a particularly fine day, or drop as low as 5 on a cold day. The strong winds do mean that the weather can change quickly, so if it's raining in the morning it could well be sunny by lunchtime.

## TIPS

---

Tips are welcomed and customary. You should give what you feel is appropriate and what you can afford. We recommend around \$100-150 per person for the whole team.

## PACKING LIST

---

### Head

- Helmets are mandatory and you should take your own to ensure a correct fit.
- Sunhat for when not riding
- Sunglasses - with a cord attached so they don't fly off when riding
- Buff or bandana for protecting your neck and face from the sun and dust
- Warm hat

- Down jacket or warm coat for the cold evenings
- Long sleeved shirts provide protection from the sun
- T-shirts
- Lightweight fleece or jumper
- Warm polar fleece or equivalent (plus a spare in case one gets wet)
- Waterproof jacket - rain can be difficult to predict and it's better to be prepared.

### Legs

- Lightweight, comfortable riding trousers or jodhpurs - we recommend riding in them at home before taking them on holiday to ensure they don't rub
- Waterproof over trousers
- Casual clothes for the evenings (jeans or walking trousers)
- Thermals in case of cold weather

### Hands and Feet

- Comfortable riding boots. We recommend short boots with half chaps but you may wish to take long chaps. We don't recommend taking your favourite long leather boots in case they get damaged
- Lightweight shoes or trainers for the evenings
- Good walking boots (or hybrid walking/riding boots)
- Several pairs of warm socks
- Gloves - your hands are particularly exposed to the sun, wind or rain whilst riding

- Pyjamas

### Other useful items

- Eye drops
- Imodium or similar anti-diarrhoea medication
- Micropur or similar water purification tablets
- Re-hydration sachets
- Antiseptic wipes
- Handwash gel

#### Our Recommendations

- You should use a soft sided suitcase which can easily be transported - we recommend a large backpack or rucksack of c. 60-80 litres
- Backpacks cannot be worn whilst riding. We recommend a small bum bag or a coat with pockets so that you can carry small items with you during the day (camera, sunscreen, lipbalm etc)
- We recommend travelling in your riding boots and carrying your hat and some riding clothes in your hand luggage - then if your luggage goes astray you are still able to ride!
- Please be aware that internal flights in Chile may have a lower luggage allowance than your international flight and you should pack according to the lowest limit.
- Carry a copy of your passport and insurance details with you.

## SUSTAINABLE TOURISM

1. **Travel light.** It's a little known fact, but the lighter you pack, the better for the environment as heavy bags will produce higher emissions (when flying a plane or driving a car!).
2. **Reduce plastic waste.** Take your favorite reusable bottle with you. Avoid single-use bags, cups, or straws.
3. **Preserve nature.** Always take your rubbish with you during the ride and recycle them. Leave all the flowers or plants as you found them, and never get too close when observing wildlife. Make sure to use eco-friendly products such as body wash or laundry detergent (if camping) to protect both your skin and the environment.
4. **Choose your experiences carefully.** Respect animal life by not participating in any activities that abuse wild animals (shows, elephant rides, etc.).
5. **Support local populations.** Buy local handicrafts, be respectful of customs, and learn about the culture of local communities.
6. **Share!** Raise awareness among your family and friends about sustainable tourism.
