## EQUESTRIAN INFO

## Horses

---

You will ride the local Khampa Tibetan horses. They are small, strong, resilient and ideal for the altitude and difficult terrain.

## Guide & local team

---

A local tour guide will welcome you in Chengdu. Once you reach Tagong, you will meet your riding team. Your expedition leader Djarga is a Tibetan who married an American so their understanding of Tibetan and Western cultures is excellent.

## Minimum riding ability

---

### MINIMUM RIDING ABILITY

This trail is open to all riding abilities, from low intermediate riders to experienced riders. Most of the riding is in single file and the mountainous terrain means that the pace is slow.

The horses are not difficult to ride although some will be more spirited than others. You should be sensible with your bags and rainwear, for example, please don't put your coat on when mounted as the horses may be startled.

Rider weight limit: 85 kg / 187 lbs / 13 st 5 lbs.

### PACE

The ride is walking only - not just because of the altitude but because your belongings are carried by pack animals (yaks) who accompany you each day.

### TACKING ABILITY AND PARTICIPATION

The horses are groomed and saddled for you by your Tibetan team.

### TRIP CONDITIONS AND REQUESTED EXPERIENCE

This ride takes place in a mountainous environment between 3800m and 4800m. The highest sleeping altitude is 4450m. The altitude is increased gradually to help you acclimatise but you should listen to the advice of your guide.

You will need to be physically fit and prepared for the conditions of the trail, including the altitude, unpredictable and changeable weather, camping and basic accommodation, spending many hours outdoors and riding in a remote location. Previous experience of adventurous travel is strongly recommended.

You will also need to be prepared for some hiking over uneven terrain and for long days in the saddle. You will need to dismount and walk for up to 3 hours at a time on mountain paths, and you may need to lead your horse for some of the time. You should prepare for the holiday by increasing your endurance training - fast walking, jogging, cycling, swimming.

You should speak to your doctor before joining the trip particularly if you have any medical conditions relating to your heart, blood pressure or respiratory system. Please check with us before booking if you have any medical conditions as you will be far from medical help. Please note that helicopter evacuation is not possible in the mountains - in certain cases evacuation may be by motorcycle and horseback until you can reach an ambulance.

All your belongings are carried by yaks.

Visiting a new country offers the opportunity to meet other cultures with different mentalities, therefore it is important to accept these differences and respect the local way of life.

## **EQUESTRIAN EQUIPMENT**

You will ride using local leather saddles which have additional covers to provide extra comfort.

We recommend taking your own stirrup leathers with you - this is because Tibetans ride very short and there may not be enough length to be comfortable.

We also recommend taking some leather laces so you can tie your coat behind your saddle.

Saddlebags are available to borrow but there is limited availability, please ask us in advance, or you can bring your own.

Equus Journeys recommends that all guests wear a helmet to the correct standard and you should bring your own to ensure a proper fit.

## **TRAVEL INFO**

### **COMFORT**

You will spend the first and last nights at a hotel in Chengdu. During the ride, accommodation varies. You will spend 1 night in a hot springs guesthouse, 3 nights at an ecolodge, 1 night at a nunnery (staying in huts) and 6 nights camping in tents (with an option to spend 1 of these nights with nomads in their yurts).

For camping nights, basic foam mattresses are provided but if you'd like a blow-up mattress please bring your own. Sleeping bags are available to rent for \$40 but should be booked in advance. (Please note that the team has very warm, -30 C sleeping bags. A comfort rating of at least -10 C is needed for this ride). During the ride and when camping, you may wash with running water or in rivers. Please note that you will be exploring some very remote parts of the country, and except for the nights at the hot springs guesthouse, the ecolodge and the hotel in Chengdu, there are no toilets or washing facilities. There will be a Tibetan style dining tent where meals are taken as a group.

### **MEALS**

The meals are predominantly Chinese and Tibetan. The base is rice, accompanied by vegetable and meat dishes - with some spices and hot peppers. Meals are essentially savoury and there is no dessert, so we recommend that sweet lovers bring their own supply of biscuits!

During the trail:

Breakfast: coffee, tea, box milk, bread, jam, eggs and ham.

Lunch: Light picnic (sandwiches, cheese, bread, sausage, yoghurt).

Dinner: Rice, vegetables, meat - fragrant Chinese and Tibetan cuisine.

In towns and villages you will eat at local restaurants.

Water:

Take care not to drink water from unknown sources. Swiss-quality water filtration is provided on the trail. Hot water and tea is also available with every meal. In restaurants, it may be possible to buy beer or fizzy drinks.

### **CLIMATE**

Rides are run during the summer season (June to September) when daytime temperatures are warm but the evenings and mornings can be cold. July and August are the hottest months with minimum and maximum temperatures of 10 and 25c on the ride. Temperatures at altitude can be even cooler

and the mountains are the perfect place to escape the summer heat.

## TIPS

If you are happy with the service that you receive from the local team then you may wish to leave a tip. To remain consistent with the standard of living in China we recommend a tip of c. £50-80 per rider which can be distributed amongst all of the staff.

## PACKING LIST

Please pack carefully and sensibly: the following guide is here to give you an idea of what to bring. There is no support vehicle on this ride - all luggage and camping equipment is carried by yaks. Please bring a soft-sided waterproof duffel or dry bag, and note that your luggage for the trail should weigh no more than 15-17kg (excluding a sleeping bag which will be tied to your saddle). You can also take rain gear and a few items in your saddle bags, such as a fleece, warm gloves, water and some snacks (please just check with us about saddle bag availability, as you may need to bring your own). If you have additional luggage, you may leave it at the ecolodge or at the hotel in Chengdu. When packing, please also bear in mind local religious and traditional cultures, there is no need to cover shoulders but we recommend wearing trousers (instead of shorts) at camps.

### Head

- Riding helmet - Equus Journeys highly recommends that our riders wear a helmet - you should bring your own to ensure a proper fit
- Sunhat
- Sunglasses - with a cord attached so they don't fly off when riding
- Buff or bandana
- Warm hat for cold nights

### Upper body

- Thermals (long or short sleeved)
- Long sleeved shirts provide protection from the sun and are an extra layer
- T-shirts
- Lightweight fleece or jumper
- Warm fleece or jumper (and a spare in case one gets wet)
- Warm and waterproof jacket - it can rain at any time of year and the evenings can be particularly cold. No ponchos or anything that can flap around!

### Legs

- Lightweight, comfortable riding trousers or jodhpurs - we recommend riding in them at home before taking them on holiday to ensure they don't rub
- Thermals
- Casual trousers for the evenings, such as jeans or tracksuit bottoms
- Waterproof over trousers

### Hands and Feet

- Comfortable riding/hiking boots. We recommend short boots with half chaps. We would also suggest something with a good grippy sole as there is some hiking downhill on this ride
- Trainers or waterproof shoes for moving around in the mornings or evenings
- Several pairs of warm, thick socks
- Gloves - your hands are particularly exposed to the sun, cold or rain whilst riding. Waterproof gloves can be particularly useful

### Nightwear

- Sleeping bag. You need at least a comfort factor down to minus 10 C. It is possible to request a sleeping bag from the local team (limited availability).
  - Sleeping bag liner - silk, cotton or fleece - adds an extra layer
  - Pyjamas or tracksuits or thermals for sleeping in.

### Other useful items

- Eye drops
- Imodium or similar anti-diarrhoea medication
- Re-hydration sachets
- Antiseptic wipes

Please respect local traditions and customs:

- In the nomad tents, please avoid stepping on/over items. The fire, in general, is considered sacred, so guests should not dry their socks and shoes near and above the fire or throw rubbish into it.
- You may wish to take some photographs or postcards of your home with you to show your hosts. You may also wish to take some crayons, colouring books etc. for the children. Be careful not to take card games as these are frowned upon by the adults, who use them for gambling.

Other recommendations:

- We recommend travelling in your riding boots and carrying your hat and some riding clothes / any essentials and valuables in your hand luggage - then if your luggage goes astray you are still able to ride!
- Please print copies of your passport and insurance documents and take them with you.
- Please use a soft sided case / bag which can easily be transported.
- Backpacks should not be worn whilst riding. We recommend a small bum bag or a coat with pockets so that you can carry small items with you during the day (camera, sunscreen, lipbalm etc).
- Please take your rubbish home with you. There are no recycling facilities in Tibet, so take your used batteries, aerosols etc. back home and dispose of them appropriately. Try to leave excess packaging material at home before travelling.

## SUSTAINABLE TOURISM

1. **Travel light.** It's a little known fact, but the lighter you pack, the better for the environment as heavy bags will produce higher emissions (when flying a plane or driving a car!).
2. **Reduce plastic waste.** Take your favorite reusable bottle with you. Avoid single-use bags, cups, or straws.
3. **Preserve nature.** Always take your rubbish with you during the ride and recycle them. Leave all the flowers or plants as you found them, and never get too close when observing wildlife. Make sure to use eco-friendly products such as body wash or laundry detergent (if camping) to protect both your skin and the environment.
4. **Choose your experiences carefully.** Respect animal life by not participating in any activities that abuse wild animals (shows, elephant rides, etc.).
5. **Support local populations.** Buy local handicrafts, be respectful of customs, and learn about the culture of local communities.
6. **Share!** Raise awareness among your family and friends about sustainable tourism.
