Minimum riding ability

MINIMUM RIDING ABILITY

You need to be at least a strong intermediate rider, competent in all paces and used to riding outdoors for several hours over varying terrain. Previous experience of a multi-day trail ride is highly recommended.
Rider weight limit: 80 kg / 176 lbs / 12 st 8 lbs.

PACE

Much of the ride will be at a walk, but there will be plenty of opportunities to trot and canter throughout the week. Some days are slower than others

due to the terrain.

TACKING ABILITY AND PARTICIPATION

Your horse will be tacked up for you by the guides, but you are welcome to assist.

TRIP CONDITIONS AND REQUESTED EXPERIENCE

You should be physically fit and prepared for long days in the saddle (sometimes 7-9 hours), riding over varied terrain and in a tropical climate. You may need to dismount and walk your horse over some steep or rocky sections.

Previous experience of trail riding is highly recommended. You should also be prepared for an adventurous trip, with simple accommodation. Please check with us before booking if you have any medical conditions.

EQUESTRIAN EQUIPMENT

The saddles are English or McLellan.

Saddlebags are provided and a sheepskin seat saver may be available on request.

Helmets are mandatory. Equus Journeys highly recommends that riders bring their own hats to ensure a proper fit.

TRAVEL INFO

COMFORT

You'll spend 2 nights at a hotel in the capital Bogota, and 7 nights in simple hotels, haciendas or farmhouses along the trail. Rooms are normally shared between two riders and have a bathroom. Exceptionally there may be some rooms shared between 3 riders or with a shared bathroom.

Accommodation is simple as the route passes through areas with few tourists – please note there is no air conditioning, and hot water may be limited.

But fans are available and there is normally wifi in the evenings.

Sleeping bags are not required.

MEALS

Breakfast is served at hotels or eaten with locals. Lunch is either a picnic carried in saddlebags or a home-cooked meal with locals. Dinner is enjoyed at a restaurant or with locals, depending on the day's accommodation. Alcoholic beverages are not included.

Breakfasts include eggs, bread, arepas, coffee, tea, chocolate, milk and fruit or juices of tropical fruits (Colombia has a wide variety and availability throughout the year, including pineapple, papaya, melon, mango, grapefruit, passion fruit, etc).

For lunch you can expect sandwiches, accompanied by crisps/snacks, and brownies or cookies for dessert. When possible, you'll stop at local houses to enjoy home-cooked food, based on beef, pork or chicken accompanied by plantains and salad. Dinners typically include beef or chicken with potatoes, plantains, casava, salad and fruit.

Vegetarian and gluten-free diets can be catered for, but please let us know in advance. Unfortunately, vegan options can't be accommodated on this trip. If you have allergies or other restrictions, please check with your advisor before booking.

WATER

Do not drink from unknown sources. You will be supplied with fresh water to drink.

CLIMATE

Colombia is a tropical country, and weather often depends on the altitude and whether you're visiting during the dry or rainy season.

Generally speaking, the higher the altitude the cooler the temperature. Bogotá is at 2,600m above sea level and so is rather cold all year round. Cartagena is at sea level and is warm all year round. On this trail, you will be riding in the Santander department which is between 1000 and 1,800m, with an average temperature of 20-30 °C.

In the Santander department, rain is becoming harder to predict, despite the dry and rainy seasons. Rides are planned all year round with rain not normally presenting an issue – but raincoats are a must throughout the season.

TIPS

Tips are welcomed. We recommend around US\$50 - \$100 per rider, to be shared between local guides and drivers.

PACKING LIST

Please pack carefully and sensibly: the following guide is here to give you an idea of what to bring. Your luggage will be carried by a support vehicle during the ride. Please use a soft sided bag which can easily be transported. There is a weight limit of 23kgs for your main bag. You can also bring a small backpack.

- It is mandatory that you wear a riding helmet and that you take your own to ensure a correct fit.
- Sunhat for when not riding

- Buff or bandana

Upper body

- Long sleeved shirts provide protection from the sun and are an extra layer
- T-shirts

Legs

- Lightweight, comfortable riding trousers or jodhpurs - we recommend riding in them at home before taking them on holiday to ensure they don't rub
- Casual trousers for the evenings, such as jeans or tracksuit bottoms

Hands and Feet

- Comfortable riding boots. We recommend short boots with half chaps. We don't recommend taking your favourite long leather boots in case they get damaged.
- Waterproof shoes/boots can be useful if it's muddy but are optional
- Trainers or equivalent light shoes for moving around in the evenings
- Socks
- Gloves - your hands are particularly exposed to the elements whilst riding.

Nightwear

- Pyjamas

Other useful items

- Swimsuit
- Cosmetics
- Towel - camping ones will both dry and pack more easily
- Small backpack for accessing items required during the day (carried by support crew)
- Bumbag for carrying your camera and small items whilst riding

Other recommendations:

- We recommend travelling in your riding boots and carrying your hat and some riding clothes / any essentials and valuables in your hand luggage - then if your luggage goes astray you are still able to ride!
- Please print copies of your passport and insurance documents and take them with you.

- Backpacks should not be worn whilst riding. We recommend a small bum bag or a coat with pockets so that you can carry small items with you during the day (camera, sunscreen, lipbalm etc)
- Please take your rubbish home with you and try to leave excess packaging material at home before travelling.

SUSTAINABLE TOURISM

1. **Travel light.** It's a little known fact, but the lighter you pack, the better for the environment as heavy bags will produce higher emissions (when flying a plane or driving a car!).
2. **Reduce plastic waste.** Take your favorite reusable bottle with you. Avoid single-use bags, cups, or straws.
3. **Preserve nature.** Always take your rubbish with you during the ride and recycle them. Leave all the flowers or plants as you found them, and never get too close when observing wildlife. Make sure to use eco-friendly products such as body wash or laundry detergent (if camping) to protect both your skin and the environment.
4. **Choose your experiences carefully.** Respect animal life by not participating in any activities that abuse wild animals (shows, elephant rides, etc.).
5. **Support local populations.** Buy local handicrafts, be respectful of customs, and learn about the culture of local communities.
6. **Share!** Raise awareness among your family and friends about sustainable tourism.
