### Day 1 — 1: ARRIVAL IN SAN JOSE - No riding

International flight to San José. Flights are not included but can be booked upon request. You will be welcomed by a member of the local team and transferred to a hotel in the city, not far from the airport.

Please aim to arrive by 5pm. There is a group transfer leaving San Jose airport between 6 and 7pm depending on arrivals of the group members. Private transfers can be arranged for those arriving earlier (please see 'dates and prices').

Overnight at the hotel.

## Day 2 — 2: SAN JOSÉ - TURRIALBA - 3 hours riding

---

After breakfast at the hotel, your local guide will meet you in the hotel's reception at 8am and you will be transferred by car to the hacienda in Turriabla (approx. a 2 and half-hour drive). If you have decided to skip the hotel night in San Jose but would like to join the transfer, you will need to meet the rest of the group at the hotel this morning at 8am.

On arrival at the estancia you'll enjoy a welcome drink and have time to settle into your room before heading to the farm, where you'll be introduced to the team and the horses. Lunch will be served facing the large grass arena.

In the afternoon, you'll enjoy a short ride in the arena to build connection with your horse. Then you'll set off on your first ride, passing sugarcane fields and coffee plantations, and enjoying sweeping views over the Central Volcanic Mountain Range. Along the way you may spot Costa Rica's iconic flora and fauna—rainbow eucalyptus, bright-blue Morpho butterflies, scarlet-red Tanagers, toucans and the famous yellow-tailed Oropendola with its unique call. After a canter, you'll stop beneath a majestic three-hundred-year-old Ceiba tree, considered sacred by the Maya. You'll return to the hacienda at around 5pm. In the evening, you'll enjoy a delicious barbecue dinner at the hacienda's restaurant, (with vegetarian options for those who'd prefer).

Overnight at the hacienda.

## Day 3 — 3: EL SILENCIO - 5 hours riding

---

You'll have breakfast on the terrace today before heading out for a full day on horseback. For those interested, every day before riding there is an optional, guided stretching / warm-up session to release tension and prepare your body for the hours in the saddle.

Then it's a long ride exploring small villages and spectacular viewpoints overlooking Lake Angostura. Lunch is served at a very typical local restaurant, allowing you to experience the warm hospitality of the locals, (the food will include a delicious homemade dessert).

You will then visit Beneficio Naturalba, the farm's organic coffee cooperative, to learn about Costa Rican coffee production and taste coffee from the local Bio Producers Association. Then it's a ride back to the farm through the forest.

Dinner and overnight at the hacienda.

## Day 4 — 4: FREE DAY IN TURRIABLA - 3 hours riding (optional)

---

After breakfast at the hacienda, it is up to you to choose what you'd like to do today. Several activities are available, including a day trip to go rafting on the world-famous Pacuare River, a guided nature walk early in the morning, a guided visit to Turrialba Volcano, a morning trail ride or a horsemanship session. Please note that there is an additional fee for all activities, including the morning trail ride. (Please see 'dates and prices').

Alternatively, you can choose not to participate in any of the above activities, and instead take yourself for a walk along nearby forest trails, swim at the waterfall or simply enjoy some quiet time at the hacienda. Lunch is not included today (except for those going rafting) but it is possible to have lunch at the hacienda for an additional fee.

In the evening, you'll regroup for dinner (included) at a local restaurant, with a demonstration of Paso Costarricense horses and lasso handling.

Overnight at the hacienda.

## Day 5 — 5: FINCA TRES EQUIS - 6 hours riding

---

Today it's breakfast on the terrace before setting off to a neighbouring farm, Finca Tres Equis. This property plays a key role in biodiversity conservation, owning and protecting hundreds of hectares of forest bordering the Pacuare River and the virgin forest of Barbilla National Park. Today you will ride the farm's own criollo horses — smaller, more rustic, and very typical of Costa Rica, offering a different riding experience from the horses back at Monte Claro.

You will ride across cocoa plots at the top of the property, then descend to the Pacuare River for a refreshing swim and a delicious lunch. After a long climb back up, enjoy a cup of coffee on a viewing platform overlooking mountains and forest — an unforgettable panorama. You'll return to Monte Claro in the late afternoon.

Dinner and overnight at the hacienda.

## Day 6 — 6: PAVONES - 5 hours riding

---

Breakfast at the house, then pack your things—tonight you will experience a very special type of accommodation!

At the farm, the horses will be prepared for a final trail ride through the tropical forest. You'll head out to explore the outer edges of the property,

descend shaded hills beneath giant Espavel trees, and cross former pastures now part of a major reforestation project with native species. You will continue until you reach the sandy banks of the Reventazón River. There you will enjoy lunch and a break, with a chance for swimming. Those who wish, may be able to take their horse into the water for a magical experience. The afternoon includes more scenery, some canters and a stop at a waterfall where you may be lucky enough to spot turtles. You'll return to the stables mid-afternoon.

Later it's a final group dinner at the hacienda. For those who would like the opportunity to immerse themselves in nature, you have the option to spend the night in one of the eco-decks: made using natural and local materials and featuring an open wall overlooking the valley, mountains and volcano. Please note there is no wifi or electricity, only star light and a few solar-powered lamps.

Dinner at the hacienda's restaurant and overnight in the eco-deck.

## Day 7 — 7: DEPARTURE - No riding

Today is your last morning at the hacienda. After breakfast, you can watch some training of the young horses and learn more about horsemanship.

There is a group transfer to the airport departing at 1pm. The drive to the airport is approx 3 hours, but can take up to 4 hours if there is a lot of traffic. With this in mind, please book a flight departing after 7pm. If you are continuing your travels in Costa Rica, we can arrange for you to be dropped off in Turrialba or in San Jose at no extra cost.

The herd includes 22 horses living together outdoors in large pastures, (in their natural herd environment). Some of the horses are Costa Rica's national breed, the 'Paso Costarricense' – a gaited breed known for having a smooth, four-beat lateral gait. The rest of the herd includes Spanish horses (PRE) and American breeds. The local team trains and works with its horses using natural horsemanship techniques. All horses are ridden in bitless bridles and are barefoot.

## Guide & local team

---

The hacienda is owned by Marie Beuchet, who inherited the farm from her family 25 years ago. She dedicates herself mainly to the production of organic coffee on the farm, and supervises the tourism teams. The rest of the team includes a tourism manager and a local vaquero who takes care of the animals and horses, in addition to several English-speaking guides who are all experienced riders with first aid training.

## Minimum riding ability

#### **MINIMUM RIDING ABILITY**

The standard ride is suitable for strong intermediate riders and above. You should be competent in walk, trot and canter.

Low intermediate riders are also welcome on certain departures, and the pace will be adjusted. Please contact your travel advisor for more information. All riders should be able to mount and dismount independently and have a good level of physical fitness.

Rider weight limit: 85 kg / 187 lbs / 13 st 5 lbs.

#### **PACE**

Much of the ride will be at a walk, with some trots and canters each day when the terrain allows.

You will be asked to help groom, tack and untack your horse but help will be on hand. You may also assist with feeding and watering the horses if you wish.

## TRIP CONDITIONS AND REQUESTED EXPERIENCE

Saddlebags will be provided.

## TRAVEL INFO

### COMFORT

On the first night you will stay at a hotel in San Jose, with a swimming pool, close to the airport. For the rest of the trip, you will stay at a quaint and colonial-style hacienda and farm. Each room has an ensuite bathroom, and rooms are normally shared between two or three riders. You will have the opportunity to stay one night in one of the four “eco-decks” – large platforms with an open terrace and no windows or electricity, giving guests a rare chance to observe the forest and listen to the noises of nature overnight. There is a shared kitchen and meals are served on the different terraces of the house, depending on the number of guests. Please note: it is also possible to skip the hotel night in San Jose and join only for the nights at the estancia in Turrialba. Please see ‘dates and prices’.

### MEALS

Breakfast is usually continental style, with toast, eggs, farm jams, fresh fruit and yogurt, coffee and tea. Coffee is all from the farm, the Naturalba coffee.

Lunches are typically local dishes, such as rice and beans (Casado) with chicken or meat, sautéed vegetables, mixed salad and fruit. Alternatively, you may have a picnic with sandwiches, savory and sweet pastries, freshly cut fruits and vegetables and juice.

Dinner is usually local cuisine, for example, on the first night at the hacienda there will be a buffet with grilled meats, potatoes and various vegetables, green or mixed salad, and a dessert of ice cream, tropical fruits or homemade cakes. On some other days you will try restaurants with a choice of meals or a set menu.

### WATER

You will be supplied with fresh water to drink.

### CLIMATE

This area of Costa Rica has a humid, tropical climate tempered by altitude, with pleasant temperatures all year round and very green vegetation. Average daytime temperatures are usually between 22 and 28°C. Night time temperatures are usually between 16 and 20°C.

The dry season runs from December to April. At this time the climate is generally drier and sunnier. Days are warm but pleasant, and nights are cool. A few showers are possible, but usually infrequent.

The rainy season (green season) runs from May to November. At this time, there is more frequent rainfall, mainly in the late afternoon or evening. Mornings are often sunny or partly cloudy. Nature is particularly lush during this period. September and October are the wettest months.

### TIPS

You should tip what you feel the service is worth and what you feel comfortable with. We suggest around 10–15% of the trip cost to be shared among the team.

### PACKING LIST

Please pack carefully and sensibly: the following guide is here to give you an idea of what to bring.

#### Head

- Riding helmet
- Sunhat for when not riding
- Sunglasses - with a cord attached so they don't fly off when riding
- Buff or bandana

### Upper body

- Long sleeved shirts provide protection from the sun and are an extra layer
- T-shirts
- Lightweight fleece or jumper
- Warm fleece or jumper if needed
- Waterproof jacket

### Legs

- Lightweight, comfortable riding trousers or jodhpurs - we recommend riding in them at home before taking them on holiday to ensure they don't rub
- Casual trousers for the evenings, such as jeans or tracksuit bottoms
- Waterproof over trousers if you want, in case of lots of rain

### Hands and Feet

- Comfortable riding boots. We recommend short boots with half chaps. We don't recommend taking your favourite long leather boots in case they get damaged.
- Waterproof shoes/boots
- Trainers or equivalent light shoes for moving around in the evenings
- Flip flops or sandals
- Socks
- A thin pair of riding gloves (optional, to protect your hands from the sun).

### Nightwear

- Pyjamas

### Other useful items

- Swimsuit
- Small backpack for accessing items required during day trips
- Headtorch or small torch
- Water bottle

### Medical kit

- Sunscreen and lip balm - should be high factor
- Insect repellent, preferably containing deet
- Any medication you regularly take

- Antiseptic cream, plasters, aspirin, anti-histamine, insect-bite salve etc...
- Spare prescription glasses/contact lenses
- Eye drops
- Imodium or similar anti-diarrhoea medication

### Other recommendations:

- We recommend travelling in your riding boots and carrying your hat and some riding clothes / any essentials and valuables in your hand luggage - then if your luggage goes astray you are still able to ride!
- Please print copies of your passport and insurance documents and take them with you.
- We recommend using a soft-sided bag which can easily be transported.
- Backpacks should not be worn whilst riding. We recommend a small bum bag or a coat with pockets so that you can carry small items with you during the day (camera, sunscreen, lipbalm etc).

## SUSTAINABLE TOURISM

1. **Travel light.** It's a little known fact, but the lighter you pack, the better for the environment as heavy bags will produce higher emissions (when flying a plane or driving a car!).
2. **Reduce plastic waste.** Take your favorite reusable bottle with you. Avoid single-use bags, cups, or straws.
3. **Preserve nature.** Always take your rubbish with you during the ride and recycle them. Leave all the flowers or plants as you found them, and never get too close when observing wildlife. Make sure to use eco-friendly products such as body wash or laundry detergent (if camping) to protect both your skin and the environment.
4. **Choose your experiences carefully.** Respect animal life by not participating in any activities that abuse wild animals (shows, elephant rides, etc.).
5. **Support local populations.** Buy local handicrafts, be respectful of customs, and learn about the culture of local communities.
6. **Share!** Raise awareness among your family and friends about sustainable tourism.
