EQUESTRIAN INFO

Horses

The herd is made up of 9 spirited yet dependable horses aged between 5 and 12 years. There are two Lusitanos, four purebred Galician horses and three larger Galician crosses for taller riders.

They live together outdoors in a natural herd environment, which keeps them calm, balanced and social.

Guide & local team

Adrián is a fifth-generation horseman. Experienced in natural horsemanship, liberty work, and classical dressage, he has been riding since before he could walk and has guided horseback expeditions across the world. He breeds and trains all the horses used on the trail and is known for his calm, intuitive approach. Adrián also has a background in cooking and nutrition and works as a nutritionist in his spare time. He speaks Spanish, Portuguese, and basic English.

Paloma discovered her love of horses as a child and has trained in liberty work, natural horsemanship, and dressage, with a focus on connection over competition. A qualified nurse with advanced first aid and emergency training, she later transitioned into tourism and hospitality management. Warm and attentive, she combines her care for people with a lifelong passion for horses and travel.

CLIMATE

From spring to early autumn, Galicia offers a mild Atlantic climate, shaped by coastal breezes, and the influence of the nearby mountains.

April and May mark the beginning of warmer weather after the winter rains. Days are generally mild, with average temperatures between 12-18°C, though early mornings and higher elevations in the Galician sierra can still feel cool. Rain showers remain possible, and the landscape is lush and green.

June to August are the warmest and driest months. Inland areas and sheltered valleys often reach 24-30°C, while coastal regions remain cooler thanks to the Atlantic influence. Sea breezes help with the heat near Baiona. Rainfall becomes infrequent, though occasional Atlantic fronts can still bring brief cloudy or misty spells, especially near the coast.

September brings slightly cooler temperatures, usually 20-26°C, and marks the return of more variable weather. Scattered showers become more common as the month progresses.

SUSTAINABLE TOURISM

1. **Travel light.** It's a little known fact, but the lighter you pack, the better for the environment as heavy bags will produce higher emissions (when flying a plane or driving a car!).
2. **Reduce plastic waste.** Take your favorite reusable bottle with you. Avoid single-use bags, cups, or straws.
3. **Preserve nature.** Always take your rubbish with you during the ride and recycle them. Leave all the flowers or plants as you found them, and never get too close when observing wildlife. Make sure to use eco-friendly products such as body wash or laundry detergent (if camping) to protect both your skin and the environment.
4. **Choose your experiences carefully.** Respect animal life by not participating in any activities that abuse wild animals (shows, elephant rides, etc.).
5. **Support local populations.** Buy local handicrafts, be respectful of customs, and learn about the culture of local communities.
6. **Share!** Raise awareness among your family and friends about sustainable tourism.
